BORA
Speedhorse

QUICK RELEASE
TECHNOLOGY

BORA was founded in 2006, spurred on by the idea of creating a clamping straight edge that would allow effortless straight cuts on sheet goods. Our goal was simple - - make a tool that made the job easier and faster without compromising the results. And so, we did. The Clamp Edge was made and BORA was born.

Over the years as our product lines have grown, our mantra has remained the same: create innovative tools that simplify tasks and deliver professional results. And by doing so, enable our users to increase productivity and expand not only their capabilities, but their workspaces as well. Because at BORA, we know that unless our tools are helping people complete projects faster and safer with better end results, we're not doing our job.

From our Work Stands, Saw Horses, and Mobile Bases that offer the very best option for workspace mobility and flexibility, to our Saw Guides and Shop Accessories that provide efficiency and functionality for a wide variety of projects, BORA's tools have been designed to endure the long days on the jobsite, at the workshop, or in your garage.

So, whether you're a professional, DIY enthusiast, craftsman, or hobbyist we have the tools you need to get the job done.

“MY FAVORITE BORA TOOL IS THE CENTIPEDE WITH TABLETOP.”

BORA

**MEET
THE
MAKER**

GINGER WOODWORKS

Meet the Maker is our series highlighting amazing professionals, woodworkers and DIYers! These are people who inspire and impress us daily with their creativity, dedication to their craft, and hardworking nature.

We're catching up with Ginger Woodworks — known in the real world as Rob.
Check out this quick snapshot of his life as a woodworker.

Your woodworking story:

My dad worked for a furniture company, and I grew up going to the shop to visit him for years. He'd walk us around and it was really cool. My dad had a shop, too. I'm the oldest, so I'd tag along and help, doing what an 8-year-old can do in the shop. It was always a thing in our house. When I was 25, I bought my first house and basically just renovated that whole thing. Then I had kids, and that's when the shift came. I went from remodeling to making things, because that's what kids want.

What you want your kids to learn from seeing you in your shop:

At the end of the day, if my kids were willing to work with their hands in some capacity, that would be great. I see a lot of people who don't have an interest in doing things themselves. So when my kids grow up and move out, I just want them to be willing to do things themselves, to take a shot and find out they can.

How woodworking enriches your life:

As a social worker, I've seen all the things no one wants to talk about. Woodworking gives me a place to get away from that. It just gives me a minute to myself to take my mind off things, decompress, and take away the stress of my job.

How you balance your family, your job, and a constant stream of projects:

My dad raised me that you just get it done. If the projects are there and I have a busy schedule with events for my kids, the only way to make that happen is to do what I have to do when I have the time. I don't want to miss my kids' things and those other things that are most important.

One piece of advice for anyone sharing their woodworking journey on social media:

Don't feel like you need to compare yourself to anyone else. You should be who you are. People lose sight of where they're posting, or building, or

making because they get caught up in what other makers are doing. Recognize that the world needs you as you. If you're gonna grow your account, grow it as you. Don't take yourself too seriously. It can be serious and there can be pressure, especially if you're trying to work with brands, but don't let it get to you. Carve out your niche on whatever platform you're on.

Favorite tool to work with and why:

Easily the track saw. Its versatility and accuracy make doing my projects easier and better. I can take it everywhere I go, and using the BORA Tabletops, I can make cuts even more accurate.

Favorite BORA product and why: My favorite BORA tool is the Centipede with the Tabletop.

It has amazing weight limits, and it's easy to take on the go. Plus, it's stable, functional, and has so many uses.

Portacube STR Miter Saw Workstation
PM-8000

Functions as miter saw stand and workstation. Rotate the table top 360° to use your miter saw and flip it back to put it away.

Expands to provide up to 7 ft. (2.1m) of working space

Great for small work spaces

10-inch (25.4 cm) easy-roll wheels

Portable Folding Miter Saw Stand
PM-4000

Contractor-grade portable miter saw stand made for the toughest job sites.

Rolling Miter Saw Stand
PM-3900

Durable and lightweight miter saw stand with wheels for easy portability.

DIY Folding Miter Saw Stand
PM-3600

Perfect for the DIYer and part-time woodworker to work in any space or location.

Tool Mounts
PM-7002

Attach these miter saw mounts to power tools to easily switch them out.

Miter Saw Stand Wheel Kit
PM-4004

Improve maneuverability, stability, and safety with this attachable wheel kit.

MEASURING AND MARKING

MiterX Angle Duplicator
530401

Perfect miters every time. Match any inside or outside angle in three simple steps.

QuickCut™ Circular Saw Cutting Guide
530416

Versatile, easy-to-use handheld cutting guide for measuring and marking.

From the job site to the garage, there's a workstand for any location or application.

Wood Rack

Ideal for workshops, sheds, garages, or any area where long items need to be stored neatly. 110 lbs (50kg) weight capacity per level. (660/440 lbs total.)

SKU	Description
PBR-001	6 Tier Wood Rack – Orange/Gray
PBR-006B	6 Tier Wood Rack – Gray/Black
PBR-0620	6 Tier Wood Rack – Gray/White
PBR-004	4 Tier Wood Rack – Orange/Gray
PBR-004B	4 Tier Wood Rack – Gray/Black
PBR-0420	4 Tier Wood Rack – Gray/White

Conveyor Roller
PM-2700

Versatile equipment that functions as a portable outfeed table or dolly.

Pedestal Roller
PM-5090

Provides stable outfeed support and freedom of movement when using a table saw. 150 lbs. (68kg) weight capacity.

Tri-Function Pedestal Roller
PM-5093

Offers 3 kinds of support as a portable outfeed table. 150 lbs. (68kg) weight capacity.

The largest and most powerful router motor on the market.

3.25HP Variable Speed Router Motor
PM-6200

The 3.25hp Router Motor delivers the performance you need to get the job done. Whether you're shaping edges, cutting dadoes or rabbets, or using it in the CNC machine, you'll still get the easy handling you need to create your best work.

1 1/8" Offset Collet Wrench 2-Pack
4028

Router Base
PM-6210

3.25HP Variable Speed Router Motor + Base
PM-6250

Next-Gen Panel Carrier

PM-1850

Large sheets and panels of wood are hard to grab and even harder to move across your workshop. Save time and effort (and your arms and back) with the PM-1850 Panel Carrier, perfectly designed to do the heavy lifting for you.

NEW!

Winner of the 2016 Pro Tool Innovation Award in the Miscellaneous Hand Tools category

Helps you easily move large sheets and panels — even full 4x8 sheets

Bottom lip can support 2-3 sheets of plywood at once

Functions as a panel dolly and table saw feed stand

7" Smooth-gliding wheels ensure easy transport

Parallel Clamp

Rigidly clamp down case goods and other woodworking projects with rock-solid stability.

SKU	Description
571112	12" Parallel Clamp
5711124	24" Parallel Clamp
571131	31" Parallel Clamp
571140	40" Parallel Clamp
571150	50" Parallel Clamp

Mini Spring Clamps - 20-pc Set
540520

Fit where standard size clamps can't to ensure clamping power in small, tight spaces.

Sets

SKU	Description
571124T	BORA 24" Parallel Clamp, 2-Pack
571131T	BORA 31" Parallel Clamp, 2-Pack
571140T	BORA 40" Parallel Clamp, 2-Pack
571150T	BORA 50" Parallel Clamp, 2-Pack
571550I	BORA 4pc Parallel Clamp Set - Includes 2 x 24" + 2 x 31" Clamps

Corner Clamp
551025

Easiest way to ensure material is held together at a perfect 90-degree angle.

Drill Press Vise
551027

Securely grips material without marring it to prevent any slippage or movement.

Open up the workshop for better productivity, improved organization, and increased mobility.

Workbench Caster Kit
PM-950

Heavy-duty brackets and rock-solid foot levers help mobilize your workbench.

Customizable Mobile Base
PM-1100

Mobilize machines with non-traditional dimensions. Supports up to 400 lbs.

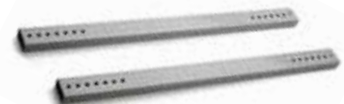

Mobile Base Extension Rail Kit
BK1218

Expand PM-1000 and PM-2500 to accommodate larger machines

Mobile Base T-Extension
PM-3245

Expand existing PM-3500 or PM-3550 mobile base to accommodate 30-53" fence systems.

Mobile Base Extension Rails
PM-3036

Expand PM-3500, 3550, 3800 with heavy-duty extension rails.

NEW!

Adjustable in 1" increments

All steel construction

High-Clearance Super-Duty All-Swivel Mobile Base
PM-3800

Easily move heavy machines over cracks, cords, and uneven terrain. Supports up to 1500 lbs.

Adjusts from 20.75x23.75" to 28x33.5"
(52.7x60.3 cm up to 71.1x85.1 cm)

Non-marring ball bearing wheels

Universal Mobile Base
PM-1000

Make the most of small shop space. Supports machines up to 400 lbs.

Universal Mobile Base
PM-1050

Make your machines mobile. Supports machines up to 400 lbs.

Heavy-Duty Adjustable Mobile Base
PM-2500

The most popular BORA mobile base. Supports machines up to 650 lbs.

All Swivel Mobile Base
PM-2550

The universal shop workhorse. Supports machines up to 650 lbs.

Super-Duty Mobile Base
PM-3500

Move even the heaviest equipment at the touch of a finger. Supports up to 1500 lbs.

Super-Duty All-Swivel Mobile Base
PM-3550

Four omni-directional wheels make it easy to move any equipment. Supports up to 1500 lbs.
